## Personal Statement

I am a passionate and creative web developer with 3+ years experience and an exceptional work ethic. I am always looking to further develop my skills and learn further technologies being an avid believer of taking responsibility with personal development.

Primarily experienced in HTML, SASS/CSS and Javascript. Studying Vue.js and PHP/Laravel to then move onto fullstack technologies such as the MEVN stack. Currently seeking opportunities in a rewarding Web Development role within an organisation surrounded by like-minded developers that offer the opportunity to progress.

## Skills

- Skilled in HTML, CSS/SASS and Javascript.
- Sound familiarity with Vue3, PHP/Laravel, MySQL, Git, Web Hosting, Developer Tools, Google Suite and MS Office.
- Primarily Experienced with Windows OS and Visual Studio Code.
- Detail-oriented and thorough to avoid mistakes that limit platform efficiency and user navigation, especially with responsiveness and the mobile first model.
- Great communication skills and ability to work well with others.
- Creative and analytical problem-solving and troubleshooting skills.

## Education

- Modern JavaScript From The Beginning  
Brad Traversy, Udemy Course (2020)
- Modern HTML & CSS From The Beginning (Including SASS)
